About AEGLE Aviation

AEGLE Aviation Limited was established in 2013 with Hong Kong as its operating base.

In Nov 2015, AVIC Investment Fund (AVIC Trust/CAIGA partnership) became an investor of AEGLE Aviation Ltd. as part of their expansion plans outside of their China manufacturing and service network.

The company offers one-stop shop services of aircraft management or operations and aviation consultancy including aircraft upgrades; pre-purchase and pre-delivery inspections; hangarage operation and management; aircraft registration and certification; technical manual writing; Safety Management System (SMS); cabin and service etiquette training; aircraft budget planning for aircraft operational costs; personal concierge services; aircraft cleaning and detailing.

The team at AEGLE Aviation has an extensive track record in managing various corporate aircraft for corporations and high net worth individuals located in Asia, and collectively has decades of experiences in business aviation in the region.

The name AEGLE represents 'Brightness; Splendour like a Diamond' in Greek mythology, signifying the service promises that AEGLE would like to provide to its clients i.e. being prestige and unbreakable like a diamond. The investors of AEGLE Aviation believe that there is a growing need for both genuine and personalized service for private jet owners and the AEGLE Aviation team is fully committed to this goal.
