AEGLE AVIATION GRANTED ARUBAN AIR OPERATOR CERTIFICATE (AOC)

22 JUNE 2018, HONG KONG – Aegle Aviation is proud to announce that it has been awarded the Aruban Air Operator's Certificate (AOC).

AEGLE Aviation (Aruba) N.V. is pleased with the issuance of its first AOC from the Department of Civil Aviation of Aruba, as this marks a new phase in the development of Aegle Aviation.

‘Working with the Aruban Authorities has been a great experience. Now, we can offer our clients an established aircraft registry with chartering capability under a high standard of regulatory system.’ AEGLE Aviation’s Chief Executive Officer, Ms Joyce Kee notes.

‘With all the required documentation in place, it can take as quick as 48 hours to register an aircraft with Aruba. The Aruban registration marks such as P4-FLY, can be an attractive, and fun expression for the aircraft owners too.’ Greg Ng, AEGLE Aviation’s Commercial Director hopes to introduce these benefits to his clients.

Note to Editors

About AEGLE Aviation

AEGLE Aviation Limited has prided itself as a boutique aircraft manager, focused on safety first, and winning the trust of its clients, whom treat Aegle as a partner.

Clients have referred their friends and partners to AEGLE Aviation in the areas which they specialize such as aircraft management/ operations, technical consultancy for aircraft purchase, pre-purchase and pre-delivery inspections, aircraft registration and certification, crew training & placements, cabin services.

AEGLE Aviation team has an extensive track record in managing various corporate and airliner aircraft for high profile and high net worth individuals located in Asia, and collectively has decades of experiences in business aviation in the region.

The name AEGLE represents 'Brightness; Splendour like a Diamond' in Greek mythology, signifying the service promises that AEGLE would like to provide to its clients i.e. being prestige and unbreakable like a diamond. The investors of AEGLE Aviation, The Aviation Industry of China (AVIC) Trust, believe that there is a growing need for both genuine and personalized service for private jet owners and the AEGLE Aviation team is fully committed to this goal.

About The Department of Civil Aviation of Aruba

The Aruban Civil Aviation Authority was founded in August 1984 as Bureau Luchtvaart Zaken (Bureau of Aviation Affairs). On January 1st, 1986 the Department Civil Aviation achieved its legal basis when Aruba reached its Status Aparte (autonomous status) within the Kingdom of the Netherlands. During the 25 years of Status Aparte within the Kingdom of The Netherlands, Aruba has come a long way in the field of civil aviation. Its liberal air transport policy, growing tourism industry, the adaption of the Joint Aviation Regulations of the European Union as Aruban laws, membership in the Latin American Civil Aviation Commission (LACAC), prominent role in the Transport Committee of the ACS, presence in the Assemblies of ICAO, and the many bilateral agreements signed, have shown the dynamism in Aruba's policy towards international air transport. It is clear that Aruba is working towards securing its economic future, and improvements are being made upon what has been achieved up to now.
